PUBLISHERS NOTE

The information in this Directory is gathered by an actual door to door canvass and is compiled in a way to insure maximum accuracy.

The publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors or omissions, hence no responsibility for same can be or is assumed.

The publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next edition of the Directory.

INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY COMPANY, publishers of Southeastern Directories, present to subscribers and the general public, this, the latest edition of the Eden City Directory. (In all, the HILL DIRECTORY COMPANY and its affiliated companies publish more than 1,400 city and suburban Directories).

Confidence in the growth of Eden's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the City Directory is a mirror truly reflecting Eden to the world.

The enviable position occupied by HILL's Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional people and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Eden City Directory will fulfill its mission as a source of authentic information pertaining to the city.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business Section, which embraces a list of the names and addresses of all business and professional concerns of the city, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified city like Eden, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The City Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents, business and professional concerns is the second major department, printed on white paper. This Directory aims to show the name, marital status, occupation and address of each adult resident of Eden, and the name, official personnel, nature and address of each firm and corporation in the city. A special feature of this section is the listing of telephone numbers.

836454
(Duke University Library)

III. THE DIRECTORY OF HOUSEHOLLERS, INCLUDING STREET AND AVENUE GUIDE is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner-occupied homes, the listing of telephone numbers, new householder symbols, and Zip Codes.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

Municipal Publicity

The City Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site, and as an educational center. The publishers have placed copies of this issue of the City Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Eden.

The Eden Out-of-Town City Directory Library

Through the courtesy of the publishers of the Eden City Directory, a Directory Library is maintained in the offices of the Greater Eden Chamber Of Commerce, for free reference by the general public. This is one of many Directory Libraries installed in cities and towns throughout the United States and Canada through the courtesy of your publisher.

The publishers appreciatively acknowledge the recognition by those progressive business and professional people who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

The present Eden city water supply comes from two plants. The city's own water system plant whose source is the Dan River produces two million gallons per day. The second plant is Fieldcrest Mills whose source is the Smith River with a capacity of four million gallons per day plus. The water from these plants are intermixed and flow throughout the water mains in the city. By January 1979 the city's new water treatment plant whose source will be Dan River will be on line. This plant will provide an additional eight million gallons, the combined total will be in excess of fourteen million gallons per day.

Water Distribution in the Fringe Area—Dan River Water, Inc., a non profit corporation sponsored by the Farmer's Administration, was organized in 1964 to provide water to residents of an extensive area west, south, and north of Eden. The organization has constructed 100 miles of waterlines ranging in size from two to eight inches in diameter, three pumping stations, and four elevated storage tanks.

Under the terms of the forty-year contract, the City of Eden has agreed to sell fifteen million gallons of water a month with Amendments to provide increased amount when needed to the distributing organization. One 250,000 gallon storage tank is located at the intersection of Highway 87 and SR 1700, a 250,000 gallon tank on the Price Road, a 200,000 gallon tank on Highway 14 south of the Dan River, and a 250,000 gallon storage tank in Wentworth. Although the system does not include fire hydrants, customers who want protection may have fire hydrants installed at their own expense where the size of waterlines will permit.

HISTORICAL SKETCH OF THE "WONDERFUL LAND OF EDEN"

The present City of Eden was previously known as the Tri-Cities of Rockingham County, formerly the Towns of Leaksville, Spray and Draper. Leaksville was incorporated in 1874; Draper in 1949, and Spray in 1951.

It was on Tuesday, September 12, 1967 that the voters of the three municipalities, namely Leaksville, Spray, Draper and residents of an un-incorporated area between the three towns, voted to consolidate the entire area into one City. The birth of the City of Eden, though later contested in the courts, became official at midnight and the city's first day in existence was September 13, 1967, thus making the new City the largest City in Rockingham County, and the 23rd largest in the State of North Carolina. Out of a total of 6,599 eligible, 4,012 votes were cast. The final vote-2,259 "for" and 1,753 "against".

The section making up the new City lies in a very historic area. It was in this section that Colonel William Byrd, the famous Virginian visited in 1728, when he led the commission running the dividing line between Virginia and Carolina. It was in 1733, that he received his grant of twenty thousand acres, which he referred to in his diary as the "Wonderful Land of Eden," and further stating that it was the most beautiful section of country he had ever seen. Later in 1743, he added an additional six thousand acres to his original tract of twenty thousand.

Leaksville, the oldest of the triplets, making up The City of Eden, was one of the oldest towns in the county. Some years prior to 1797, John Leak had received from Robert Gallaway, a large land owner, a tract of one hundred acres of land on the north side of the Dan River near the point where the Smith River (formerly the Irvin) runs into the Dan. By reason of the beauty and healthfulness of the location, Leak decided to promote a town here and had sold a number of lots. In 1797, the Legislative Body of the State passed an act authorizing him to lay off a town site on his tract according to the plans drawn by a board of commissioners named for Leak. Two streets running East and West, Washington and Jay, and three running North and South, Patrick, Henry and Hamilton were laid out, and on these streets lots were sold and the town grew up.

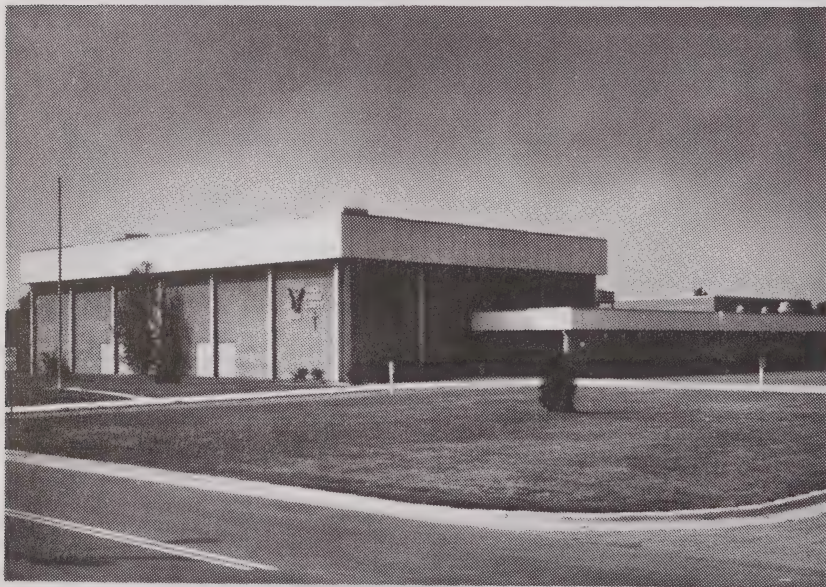

The first business houses, as well as residences, were erected on Henry Street near the river where the Karastan Rug Mill and Bedsread Mill now stand. At the terminal of this street was a boat landing where the Batteauxs, which plied the Dan River, would tie up to take on cargo.

In 1812, with the creation of the Roanoke Navigation Company, boats began to ply the river from Weldon, North Carolina, up to Roanoke River to the Dan, thence up that stream to Leaksville, which became the head of navigation. This created a great boom in the town and a rapid growth. It became the trading center of a great section, extending to and across the Blue Ridge Mountains into Virginia.

Produce from this section, accumulated by the merchants, was conveyed from here down the river and the songs of the boatmen, as they poled the long batteaux, heavily laden with tobacco, and other products along the Dan, were familiar sounds.

All of Spray and Draper, and much of Leaksville, lies within the confines of the original Byrd's tract. When Leaksville's radio station, the first in Rockingham County, went on the air in December, 1946, the call letters, with perfect propriety, were W L O E, representing the "Wonderful Land of Eden."

Around 1818, a great building boom had started here, a large bank was established, a branch of the state bank, and lots were sold for almost fabulous prices. In a few years, the boom collapsed and a more substantial growth began.

In 1819, an academy was opened at Leaksville and later a school for girls was conducted. In later years, Nathaniel Henry, a son of America's great orator and patriot Patrick Henry, conducted the Academy for males. In 1846, Patrick Henry III was head of the school. In that year he closed the school, formed a company, and as captain of it, went to Mexico with a North Carolina regiment. Other noted teachers conducted the school here, the best known being Professor N. S. Smith, and B. W. Ray.

In 1813, James Barnett had erected the largest grist mill in this part of North Carolina, at a point on Smith River, where is now the bank building at Spray. He also operated a saw mill, oil mill and cotton gin, and a large store there. He sold his interest, including a large tract of land and valuable water power to John M. Morehead, and in 1839, Morehead built Leaksville Cotton Mill. In later years Morehead became Governor of North Carolina, and one of the South's most distinguished statesmen and outstanding financiers. After his death his family continued to expand the textile interest here, establishing the Leaksville Woolen Mill in the early seventies and conducting the largest mercantile establishment in the county.

At Spray in 1890, Major J. Turner Morehead promoted the Wilson Aluminum Company, that never made any aluminum instead, by accident, discovered how to produce carbide, which, when put in water, generated acetylene gas. From this discovery, the American Carbide Company originated and became one of the largest and greatest corporations in the world.

Eden Public Library

In 1892, under the leadership of the late B. Frank Mebane, a marvelous expansion began, and for several years a new cotton and woolen mill was promoted each year, all the available water power of the Smith River being utilized, and steam plants being required.

In the meantime in old Leaksville, tobacco manufacturing was the chief, or only industry, as it had been for almost a century. Auction warehouses had opened here soon after the War between the States, and the market held up well in competition with other points. As late as 1893, eight factories were making chewing tobacco here, and some of their brands were famous throughout the country.

The Danville and New River Railroad Company built its lines to Leaksville by 1884. It is now the Carolina & Northwestern, a branch of the Southern System. This ended all water transportation, as well as the hauling of freight from Reidsville and Danville by wagon with team horses, mules and oxen.

By 1906, Draper had grown to be a considerable village. The German-American Company had built a large textile mill there in the heart of what has always been called "The Meadows." In 1912, this plant and much land was acquired by Marshall Field and Company of Chicago. The blanket mill was enlarged and in 1915, an additional plant was built for the manufacture of sheeting. Seven mills of Spray also were acquired by Marshall Field and Company. These mills were expanded and improved and two new plants, the Bedspread Mill, and the Karastan rug mill, were built at Leaksville.

Marshall Field and Company operated this chain of mills until October 1, 1953, when the mills were purchased by a newly formed corporation, Fieldcrest Mills, Incorporated. The new company has continued to invest heavily in modernization, from early 1954 to the present day. Today, the Fieldcrest Mills together with the Leaksville Woolen Mill, The Morehead Mill, and the Spray Cotton Mills form the economic backbone of the Eden area, employing in excess of 5,000 of its citizens, with the total employment of the Eden area in excess of 8,000.

In addition to textile manufacturing, numerous other industries have been established in recent years. Among these are Rockingham Block and Ready Mix Company, a subsidiary of Boren Clay Products; Webster Brick Company, Virginia Solite Corporation, Automation Business Systems, Inc. (formerly Litho-Web), manufacturing of continuous forms for industry; and King's Chandelier, makers of crystal chandeliers.

John Motley Morehead Senior High School
and Auditorium.

The Eden area is served by the Duke Power Company which constructed here its Dan River Steam Station to furnish an ample supply of electricity to the northern part of the growing Piedmont Carolinas. The first 70,000 K.W. generating unit went on the line in September, 1949, and was followed closely by the second 70,000 K.W. unit in March, 1950. A third unit of 150,000 K.W. was added in August, 1955, and additional generating capacity of 60,000 K.W. was added in 1968, making a total capacity of 350,000 K.W. Present output is 357,000 K.W.

Telephone service for the Eden area is provided by the Central Telephone Company. The modern dial system has a capacity for a number of additional phones as needed in the future.

The Eden area now has approximately 75 churches representing all major denominations. Many fine school buildings provide for the educational needs of the area. The county library at Eden, with a branch in the eastern section of Eden, contains thousands of volumes. Y.M.C.A., Boys Club and boy and girl scout organizations provide wholesome programs benefitting youth. A total of 64 civic clubs, affiliated with National organizations provide opportunities for self-development and community improvement.

The City of Eden is located in a beautiful section. The City nestles along the rivers surrounded by a rich farming section with the towering Blue Ridge Mountains in the distance. The City of Eden is truly a "Land of Eden," not only, as Byrd wrote, "A place where everything grows plentiful to supply the wants of Man," but also where beautiful textile products are manufactured in enormous quantities to help supply the wants of man all over the globe, and with this we can truly say "that the sun never sets on a Fieldcrest product."

YOUR CITY DIRECTORY— AN INVESTMENT—A BUSINESS TOOL

Be certain that everyone in your organization is carefully instructed and thoroughly familiar with the information it contains and how to use it. To assist you, the publishers have included detailed instructions on the opening pages of each of the four Directories which should, in a general way, familiarize each user with its contents and applications.

Also, should you desire additional copies of these instructions, please write the publisher at the address in the front of your Directory.

YOUR CITY DIRECTORY— AN INVESTMENT—A BUSINESS TOOL

Be certain that everyone in your organization is carefully instructed and thoroughly familiar with the information it contains and how to use it. To assist you, the publishers have included detailed instructions on the opening pages of each of the four Directories which should, in a general way, familiarize each user with its contents and applications.

Also, should you desire additional copies of these instructions, please write the publisher at the address in the front of your Directory.

THE CITY DIRECTORY

Out of Sight--Out of Mind

☆ Out of Business ☆

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

NUMERICAL TELEPHONE DIRECTORY

The Telephone Numbers and names in this Directory were supplied to us during our regular door to door canvass.

This Directory is designed to assist you in providing additional information when only a telephone number is available.

NUMERICAL TELEPHONE DIRECTORY

BLUE PAGES

This Directory takes the "mystery" out of blind numbers. It lists telephone numbers in numerical sequence, making it easy to "decode" blind phone numbers in classified ads—especially valuable for real estate agencies, used car dealers, etc.

WHAT'S IN A PHONE NUMBER?

ABOUT THE FIRM:

Who called me? When your call back message gives a telephone number only—or includes a common surname such as Jones, Smith, Brown, etc.—this Numerical Telephone Directory will assist in determining correct firm name. Make use of both Alphabetical and Street Guide information to establish names of officers, owners or partners, products and services, and correct address. Properly identify firm and caller and have needed records, file or correspondence on hand before returning call.

ABOUT THE INDIVIDUAL:

Who called me? When only a telephone number is known, this Numerical Telephone Directory will assist in determining the name of the subscriber—with this information combined with other sections of your City Directory you may quickly establish such information as wife's name, place of employment, job title, home address, business address and telephone number.

A STATEMENT of ADVERTISING PRINCIPLES

1. **GOOD ADVERTISING**—aims to inform the consumer and help him to buy more intelligently.
2. **GOOD ADVERTISING**—tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.
3. **GOOD ADVERTISING**—conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
4. **GOOD ADVERTISING**—recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.
